County events this quarter:	1	1	2
Statewide events this quarter:	53	55	108

### Types of Substances Released:

Corrosive  
Sodium Hypochlorite

### Number of Victims:

One

### Types of Injuries Sustained:

Heat stress

### Injury Outcomes:

Treated at hospital, not admitted

### Number of Events with Evacuations: 2

### Number of People Evacuated: 200

### Interesting Events:

June 2003 – Approximately 200 residents from 25 homes were evacuated for two hours when 500 gallons of liquid chlorine spilled from a tank at a public swimming pool. The tank had been filled the day before, but a hose was improperly reattached by the delivery driver and caused the tank to drain to the ground. Residents of a senior citizens' complex and other surrounding homes were advised to shelter in place. One firefighter who responded to the scene was treated for heat exhaustion.
